

Palm Lakes Condominiums

Sarasota, FL 34243

Owners Directory

<https://plcdirectory.netlify.app/>

The Owners' Directory is a "PWA," a progressive web app I created. It lists PLC owners and addresses with other public information obtained from Manatee County GIS.

It will run on Android, iPhone, tablet, or laptop. For the best experience follow the link to the app. It will open as a web page in your browser.

On iPhone's Safari browser use your browser's "Share," "View more," Scroll to find "Add to Home screen," "Add". This puts a custom icon on your screen as other native apps do. Close the browser. Run the program by clicking the icon.

In a Chrome browser (any phone) click on the small icon at the right end of the browser address bar (looks like a rectangle with an upwards pointing arrow), "View More", scroll down to "Add to Home Screen", then "Add". This puts a custom icon on your screen as other native apps do. Close the browser. Run the program by clicking the icon.

In other browsers look for "Install", "Save to phone", or "Save to desktop". This puts a custom icon on your screen as other native apps do. Close the browser. Run the program by clicking the icon.

Use the app menu on the upper right to choose your preferred sort option. Click each property to open a detailed listing of each property. This reveals an area where you can add notes for each address. Your notes are saved on your device and private, never shared.
